## Customer Reviews

The Haunting of Hill House remains one of the most important horror novels of all time and certainly one of the most singular haunted house tales ever written. It is certainly worth mentioning that at no time do we or the characters actually see any sort of visible ghostly manifestation; the phenomena are limited to cold spots, spectral banging on the walls and doors, messages written on walls, and torn, blood-spewed clothing in one room. If Jackson had compelled Hugh Crain (the man who built Hill House) to pop out of the woodwork and say Boo!, this story would have been long forgotten. Still, it quite amazes me that Shirley Jackson has met with such critical success and eternal popularity; I say this only because her writing style is unique and rather off-the-wall. Truly, Jackson's writing itself is haunted, and she herself almost surely was in some manner. There is a degree of insanity in every page; the characters often engage in dialogue that is childish of a sort and certainly different from normal adult conversation. I would think such idiosyncratic writing would appeal only to those like myself who are different, somewhat kooky, outsiders looking at the real world through thick-paned glass that sometimes fogs over or plays tricks with our eyes depending on the angle in which the sun hits it or does not hit it. Eleanor is an especially appealing character to me because I share many of her doubts and fears: I don't belong, what are people saying about me?, are people laughing at me behind my back?, why am I here and where am I going?, etc. No one rivals Jackson in the ability to paint a deeply moving, psychologically deep portrait of the tortured soul.
