The Sexy Librarian's Big Book of Erotica consists of 22 short stories that are incredibly diverse. Spanning such erotic genres as fairy tales, Greek classics, sci-fi, and even steampunk, this two hundred something page book truly manages to be its own little library of sexy fun. I love that at the beginning of each story, there's a library-esque card catalog introduction that introduces the story with the title, author, category, and subject. Not only is this incredibly cute and matches the librarian theme of the collection, but it is also exceedingly helpful. It lets you easily flip through the book and pick a book based on your mood and interests at that very moment. Conversely, it allows you to skip stories that you know aren't your erotic interests. The stories are unconnected, so in addition to easy maneuvering through genres and the like, this means that you do not have to read them in any specific order, or straight through like a regular novel. You can pick and choose, stop and go back, and read in whatever way may tickle your particular fancy. Personally, I went to my favorite genres

and kinks first because I'm impatient and the kind of girl who sneaks peeks at her Christmas presents well before Christmas morning. That being said, I can honestly say that there is no story in this collection that I didn't enjoy. That being said, of course I loved some more than others. I'll share with you my top three stories, in no particular order. "Three Legs in the Evening" by Janine Ashbless is an erotic imagining of Oedipus and the Sphinx that he encountered in the Greek tragedy we all know and love. This one tugged at my Classics minor, and I adored that someone decided to make something, well, classic into an erotic tale.

Even before I read *The Sexy Librarian's Big Book of Erotica*, I wanted to like it, so while this review is unbiased, I feel I should probably state up front that I was in this book's corner from the the start. Happily, I went from wanting to like it, to freaking loving it, which was a really happy thing. This book presents the reader with a meticulously curated miniature library of erotic stories. The stories in here cover romance and kink, fantasy and fairy tales, sci-fi, ghost stories, mythology and more. There's even a rope slinging super hero and an anthropomorphic mason jar. There is, quite literally, something for everyone's taste. What's especially impressive is that, despite the variety, there is a cohesion to the collection as a whole. The stories are linked by quality and vision, if not by theme and content. That, more than anything, is a testament to Ms. Caraway's skills as an editor. I can honestly say that the entire collection is good. Taken by their individual merits, each story is a gem, suited to any number of particular tastes. Happily, each story has its own catalog card > right up front, so you can flip through and find one that might especially appeal at any given time. Of course, every reader will have his or her favorites and I'm no different. Here are the ones that especially stayed with me: "Three Legs in the Evening" by Janine Ashbless's gorgeously inventive take on the myth of Oedipus. The story unfolds slowly as the author layers in subtle moments of incredibly sensual detail. This story is like foreplay in written form. Seriously. Read it. I'm not kidding. On the absolute opposite end of the spectrum is Tamsin Flowers's fabulously sexy, campy romp, "POW! It's Shibari Girl!"
