Customer Reviews

It has very clear exercises to reinforce the textbook activities. It is great to review and to get more practice. The audio activities are posted on the classzone.com website. The book has the written exercises associated with the audio sections.

I ordered this product as a resource for my Spanish II classes. I love that Avancemos has leveled, differentiated assignments catered towards different abilities in this book. As a teacher, this is essential! The product shipped quickly and arrived in the early part of the date range I was given, and in perfect condition!

Good book, a lot of exercises for HS and Middle school students.

Good as required for school.
