## Synopsis

The Key West Storm Warning is a tale of action, suspense, treachery, and murder in and around Key West, Florida. Jack Marsh and his crew have discovered a fortune in silver and emeralds off Storm Reef from one of Hern n Cort s's treasure ships that sank in 1520 on its way back to Spain. The crew works against time as a huge Cat-4 hurricane barrels across the Caribbean Sea towards the salvage operation. The salvage and retrieval of the treasure turns deadly when word leaks out about the find. Marsh's deadly adversary, Sonny Dupree learns of the discovery and quickly turns up at the dive site with plans to take the treasure and sink Marsh's salvage boat, the Island Queen, with all hands onboard. The action rages above and below the surface in unrelenting suspense as men fight to the death aboard the rotted carcass of the ancient ship deep below the surface. The survivor takes all but first they have to survive the storm.

## Customer Reviews

I have been waiting for this release for weeks and I wasn't disappointed. Key West Storm Warning has action and suspense from page one all through the book. Jack Marsh is a tough man to beat in a tight situation. Storm Warning is loaded with action as he fights against time to retrieve a fortune in sunken treasure.

I have been waiting for Mike Pettit's new Key west story and bought it today. I am half way through the book and love it. The characters are strong, the dialogue is great, and the story exciting. I recommend Key west Storm warning to all Action Thriller readers.

As a reader of many Mike Pettit stories this deviated from the normal settings and I wasn't sure if I'd like it. After finishing the book I'm sold. The Jack Marsh character is very likable as well as the support characters. The trouble Jack finds himself in is just crazy but like all superhero type of characters Jack gets himself out of the jam with a little something for his bank account to boot. It is worth a chance. I enjoyed it and I think you will too.

An incredibly fast moving adventure. Plenty of twists and turns to keep you guessing. Great research done for accurate technology and terminology. This newest installment exhibits a very pronounced improvement in editing and proof reading. I strongly recommend reading the Jack Marsh series in chronological order.

This is another great Jack Marsh book. It will keep you reading because you won't be able to put it down. It will keep you on the edge of your seat with adventure. I can't wait for the next one in the Jack Marsh series.

Key West Storm Warning is full of great characters who are men of action. This book is a fast-paced action thriller. Jack Marsh is a likable guy who I wanted to see win! This newest book from Mike Pettit does not have the proofreading errors that have been found in some of his other books. Pettit gets it right!

This most recent adventure is a heart stopper. John Marsh and his salvage crew are diving for ancient long-lost treasure, lots of it egg sized emeralds. It's bad enough that they are in a race against a fast approaching hurricane and two other boats that are already parked on top of the loot--but, the baddest badass dude ever to grace the pages of Pettit's books has his sights on Marsh and he has some brutal plans in store for him. A most thrilling read :)

There is something about this Jack Marsh story that kept me glued to it. The characters are very well defined and the plot is exceptional. I love diving and I love adventure - Pettit's Marsh does not

disappoint!
